SUMMARY

I I am a B.Tech 3rd-year IT student with strong skills in frontend and backend development. I have delivered 4–5 real freelance projects, gaining experience in client communication and project execution. My tech stack includes HTML, CSS, JavaScript, React, Node.js, Express, and databases. I am passionate about full-stack development and continuously learning advanced areas like cloud and DevOps.

EDUCATION

BACHELOR OF TECHNOLOGY

Alliance University

2023–2027

SKILLS

Web Design

HTML,CSS,JS

C++,C,Python

Front End dev

Backend dev

Problem-Solving

Database,SQL,MogogDB

Full Stact Developers

EXPERIENCE

Web- developer

I have freelance experience in developing 4–5 real-world projects across different domains, using HTML, CSS, JavaScript, React, Node.js, Express, and databases. This involved end-to-end development, from understanding client requirements to deployment, while ensuring responsive design, scalability, and timely delivery.

PROJECT

Freelancing

- Law Firm Website – Designed and developed a responsive website for a law firm to showcase services and client case studies. (HTML, CSS, JavaScript, React)
- KVS Academy Website – Built an academy management site with admission details, programs, and contact features. (React, Node.js, Express, MongoDB)
- Business Portfolio Site – Created a modern portfolio site for a small business to highlight services and testimonials. (HTML, CSS, JavaScript)
- E-commerce Store (Clothing & Accessories) – Developed a fully functional online store with product catalog and cart system. (React, Node.js, Database)
- Restaurant Website – Built a restaurant website with digital menu, reservation form, and contact integration. (HTML, CSS, JavaScript)
- Personal Portfolio Website – Designed a responsive personal branding portfolio for an individual client. (HTML, CSS, React)
